

# Door electromagnet 350kg, 3500N, 12V

Reference: AM6562

EAN13: -

HS code: 85059021

## Product attributes:

## Product features:

Voltage: 12 V DC

Holding force: 3 500 N

Waterproof grade: IP65

## Product description:

Electromagnet designed for recessed mounting, which allows a visually clean door design. The electromagnet can be used, for example, on escape doors in conjunction with an electronic touch guard or with mechanical panic guards with micro switch as an exit control solution.

holding force 350kg / 3500N

working voltage 12V DC

max. current 0.32A

magnet size 252x50.5x29 mm

metal plate size 158x43x11.5 mm

weight 2.1 kg
