

# Mi-light - touch controller for RGB, RGBW controller, 2.4GHz

Reference: AM2370

EAN13: -

UPC: 94059900

## Product attributes:

## Product features:

Waterproof grade: IP44

## Product description:

This driver is suitable for RGB, RGBW LED strips with the possibility of independent control of up to 4 circuits of LED strips. Each of the circuits can be controlled completely independently, you have the ability to set the color, brightness and on/off LED strips for each circuit separately. To operate, you need to pair the controller with a control unit, which is not included and can be purchased separately.

RGBW are special strips that are fitted with powerful single-colour LEDs in warm or cool white in addition to RGB LEDs. This driver is used to control these LED strips. It can also be used for classic RGB strips and one powerful white LED strip together!! This gives you extensive possibilities to combine different types of LED strips and control them with just one controller.

Functions: on/off, color adjustment, brightness intensity control, separate control for each of the 4 circuits, synchronous control

## Warranty: 36 months

Specifications:

Power supply: 2x AAA batteries (not included)

Control: 2.4Ghz Wi-Fi, 802.11b/g/n

Range: up to 50m in built-up areas, 100m in open areas

Operating temperature: -20 - 60°C

Product dimensions: 120x52x23mm

Product weight: 54 g

Certifications: CE, FCC , RoHS
