Mi-light - touch controller for RGB, RGBW controller, 2.4GHz

Reference: AM2370
EAN13: -
HS code: 94059900

Product attributes:

Product features:

Waterproof grade: IP44

Product description:

This controller is suitable for RGB, RGBW LED strips with the ability to independently control up to 4 circuits of LED strips. Each of the circuits can be controlled completely independently, you have the option of setting the color, brightness and turning on/off the LED strips for each circuit separately. To operate, you need to pair the controller with a control unit, which is not included in the package and can be purchased separately.

RGBW are special strips that are equipped with powerful single-color diodes in warm or cold white in addition to RGB diodes. This controller is used to control these LED strips. It can also be used for classic RGB strips and one powerful white LED strip together!! This gives you extensive options for combining different types of LED strips and controlling them with just one controller.

Functions: on/off, color adjustment, brightness intensity control, separate control for each of the 4 circuits, synchronous control

Warranty: 36 months

Specifications:

Controller power supply: 2x AAA batteries (not included)

Control: 2.4Ghz Wi-Fi, 802.11b/g/n

Range: up to 50m in built-up areas, 100m in open areas

Operating temperature: -20 - +60°C

Product dimensions: 120x52x23mm

Product weight: 54g

Certificates: CE, FCC, RoHS
