

## LED Diode 8mm, Red diffuse

Reference: AM1353

EAN13: -

HS code: 85414100

### Product attributes:

### Product features:

Light color: Red

Wavelength: 620-630 nm

Angle of light: 25-30°

Luminosity: 1000-2000 mcd

Current: 20 mA

Voltage: 1.8-2.2 V DC

### Product description:

Diffuse superluminous diode, see product specification for LED parameters.
