

Linear motor driver 6-28V DC max. 3A

Product codes:

Reference: AM8775

EAN13: -

UPC: 85044090

Product features:

Waterproof grade: IP20

Product attributes:

Product description:

DC linear motor speed controller.

Potentiometer with regulation function.

Forward or reverse direction control and push-button stop.

Press the green button, the motor turns and releasing the button stops the motor.

Press the red button, the motor rotates clockwise and releasing the button stops the motor.

Working voltage: 6-28V DC

Maximum continuous output current: 3A

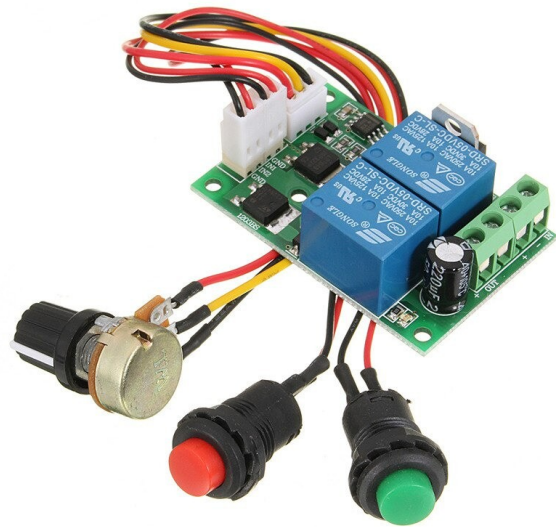

PWM frequency: 21kHz

Adjustable duty cycle: 000%

Ambient Humidity: 0-95%

For indoor use only

Size: 57x37x21mm
