

Inductive sensor SN04 N2, NPN NC

Product codes:

Reference: AM1754

EAN13: -

UPC: 85365080

Product features:

Current: 300 mA

Voltage: 10-30 V DC

Cable length: 120 cm

Waterproof grade: IP67

Product attributes:

Product description:

Inductive proximity sensor NPN NC with LED indication and mounting holes. The module is widely used in automation for detection, control and contactless switching.

Specifications:

Detection distance: 4 mm \pm 10%

Adjustable distance: 0-3.8 mm

Detected objects: magnetic and non-magnetic metals (detection distance decreases for non-magnetic metals)

Sensitivity: metal 18x18x1mm

Indication of the switched state

Supply voltage: 10-30V DC

Output current: max. 300mA

Response frequency: 0.5 kHz

Output: 3 wires, Vcc, GND, NPN NO

Protection: IP67

Cable length: 120cm

Package contents: sensor, mounting screws
