

Ni-MH battery 3000mAh, 6V, JST SYP 2.54

Product codes:

Reference: AM2853

EAN13: -

UPC: 85078000

Product features:

Capacity: 3000 mAh

Voltage: 6 V DC

Connector: JST SYP 2.54 - 2pin

Thickness: 14.5 mm

Product attributes:

Product description:

This nickel-metal hydride battery provides stable power for a wide range of personal and model devices. With a high capacity of 3000mAh and a voltage of 6V, it is ideal for RC models, electronic projects and portable electronics where long endurance and reliability are important.

Technical specifications

- Cell type: Ni-MH (nickel-metal hydride)
- Voltage: 6V
- Capacity: 3000mAh
- Connector: JST SYP 2.54
- Number of charging cycles: 1000
- Minimum self-discharge: 15-30% per month
- Operating temperature: 5-50°C
- Dimensions: 71 × 51 × 14.5 mm
- Weight: 101 g
- Degree of protection: IP20

Functions and features

- Stable voltage output throughout the entire discharge cycle.
-

- Low self-discharge level - the battery maintains energy even during prolonged storage.
- No memory effect, suitable for frequent charging.
- Safe operation and long service life thanks to high-quality Ni-MH cells.
- Compact dimensions suitable for many types of devices.

Ideal for

- RC models (cars, boats, robot toys)
- Personal electronics and portable devices
- DIY electronic projects
- Spare or additional battery packs

Package contents

- 1× Ni-MH battery 3000mAh, 6V, JST SYP 2.54

Why choose this product?

- High capacity for long device life.
- Long life of up to 1000 charging cycles.
- Reliable and safe operation thanks to high-quality cells.
- Universal use in many electronic devices.
- Compact size and light weight for easy integration.
