Touch switch for LED strips in the strip, 12mm, capacitive

Reference: AM7789
EAN13: -
HS code: 94059900

Product attributes:

Product features:

Voltage: 12-24 V DC
Connector: Without connector
Dimming: Yes
Waterproof grade: IP20

Product description:

Small but highly functional. Capacitive controller with dimming for LED strips intended directly for aluminum profiles with an internal width of min. 12 mm.

 Control:
Short up to 0.5s palm (finger) switch off, switch on
Long over 0.5s palm (finger) dimming (0% - 100%)

 blue LED as switch position indication
working temperature: -20 to 85 ℃
brightness control
voltage 12V, 24V
max. output 3A
size: 42x12mm
