

Metal cable gland IP68, PG

Product codes:

Reference: AM4177

EAN13: -

UPC: 85444290

Product features:

Color: Silver

Waterproof grade: IP67

Product attributes:

Thread: PG7, PG9, PG11, PG13.5, PG16, PG19, PG21, PG25, PG29, PG36, PG42, PG48, PG63

Product description:

The cable glands are completely sealed and have an IP68 degree of protection. This means that the metal seals are dustproof and protected against the effects of continuous immersion in water. Cable glands are ideal for harsher environments and outdoor applications.

Excellent water resistance
Fully sealed against dust
High quality brass with nickel plating
NBR and polyamide fastening ring
For use with unarmoured cable

Material: brass
Surface treatment: chrome nickel

Thread	Cable diameter (mm)	Thread diameter	Mounting hole	Thread length	Hexagon size (key)
