

XLR microphone cable male/female, DMX512

Reference: AM2237

EAN13: -

UPC: 8414900090

Product attributes:

Length: 3 m, 5 m, 10 m

Product features:

Color: Black

Connector: XLR

Product description:

This XLR cable is designed for audio applications, ensuring a clean and stable sound transmission. It is equipped with 3-pin XLR connectors (male and female) with nickel-plated contacts for better conductivity and corrosion resistance. The cable is made of high-quality copper, which ensures minimal signal loss and maximum sound clarity. Shielding protects against electromagnetic interference. The outer shell of flexible PVC material provides wear resistance and long life. The cable is available in different lengths to suit different user needs.

Specifications:

- **Connectors:** 3-pin XLR (male and female) with gold-plated contacts
- **Conductor material:** High quality copper
- **Shielding:** Shielding to protect against electromagnetic interference
- **Outer shell:** Flexible PVC for increased durability
- **Lengths:** Available in various lengths as required

Use:

- **Audio applications:** Microphones, mixers, amplifiers, speakers
- **DMX512:** Suitable for controlling lighting technology and effects
