

Power supply 72V, 20.8A - 1500W

Reference: AM1818

EAN13: -

HS code: 85044090

Product attributes:

Product features:

Input voltage: 190V-265 V AC, 50/60 Hz

Output voltage: 72 V DC

Output current: 20.8 A

Output power: 1500 W

Waterproof grade: IP20

Product description:

Switched industrial power supply designed for installation or distribution cabinets. This power supply is of industrial design, is covered with a metal frame with IP20 protection, has standard terminal screws for connecting the input mains voltage including a ground wire and three pairs of DC output wires. The power supply has short-circuit protection, overvoltage protection and current overload protection. The industrial power supply is actively cooled. The power supply includes an LED diode that serves to indicate the power supply and also an adjustment trimmer, thanks to which the output voltage of the power supply can be adjusted.

Suitable for example for powering servo motors, home automation, entrance gates and other applications. Always count on a sufficient power reserve (20-25%), the power supply is not suitable for long-term operation at the limit of its power capabilities. You can find more industrial power supplies of other parameters in our offer.

Input voltage: 190-265V AC, 50/60Hz.

Output voltage: 72V DC, max. 20.8A

Overload protection

Surge protection

Short circuit protection

Metal construction

Certificates: CCC / FCC / CE, ROHS

Working temperature: -30~50°C

Ambient humidity: 0~95%

For indoor use only

Size: 240x125x76mm
