

# Grill motor up to 100 kg, 2.5rpm/m

Reference: AM4269

EAN13: -

HS code: 85044090

## Product attributes:

## Product features:

Input voltage: 100-265 V AC, 50/60 Hz

Power consumption: 30 W

Waterproof grade: IP20

## Product description:

The grill motor, which can handle up to 100 kg of meat, is made of stainless steel, which ensures resistance to corrosion and extends its lifespan. Its structure is designed to be strong and stable, ensuring safety and stability in use.

The grill motor is equipped with a reliable and powerful motor that ensures even and trouble-free grilling of meat. Its precision and reliability are key to achieving perfect grilled meat.

Overall, this grill motor is ideal for anyone looking for a powerful, reliable and safe tool for grilling large pieces of meat. Its stainless steel construction ensures that it will be durable and easy to keep clean, making it a great investment for the future.

## Specifications:

Speed: 2.5 revolutions per minute

Power consumption: 30W

Max. load: up to 100kg (depending on balance and axle support), usually around 90kg

Operating voltage: 220-250V AC

Motor weight: 3.2 kg

Cable length 1.2m.

Shaft with internal square 13.1x13.1mm

Protection: IP20
