

Battery box for 4 C batteries, 6V

Reference: AM9331

EAN13: -

HS code: 85079090

Product attributes:

Product features:

Output voltage: 6 V DC

Battery: C

Connection: Series

Product description:

The practical plastic holder for three C batteries (size R14) with lead wires is an ideal choice for powering your DIY projects, electronic kits or device repairs. It provides safe battery storage and easy connection to your electronic circuit.

Technical specifications

- Battery type: 4x C (R14)
- Material: Plastic box, metal contacts
- Wires: 12 cm, insulated
- Dimensions: 59 x 105 x 28 mm
- Weight: 50g
- Color: Black
- Output voltage: 6.0V

Functions and features

- Secure attachment of the C-battery using a spring contact
- Easy installation thanks to pre-wired cables
- Durable plastic cover protects the battery from mechanical damage
- Lightweight and compact design suitable for mobile applications

Ideal for

- DIY electronic projects
- Manufacturing or repairing portable devices
- Power supply for various electronic modules
- School or hobby electronics

Package contents

- 1x 4 C battery holder with wires
- Batteries are not included!!
