LED module 4630, 1x 3030, 1.5W, 12V

Reference: AM6400
EAN13: -
HS code: 85414100

Product attributes:

Color of light: Warm white (3000-3500K), Natural white (4000-4500K), Cool white (6000-6500K), Pink, Amber, Green, Blue, Red

Product features:

Angle of light: 180°
LED type: 3030 SMD
Voltage: 12 V DC
Number of LEDs: 1
Performance: 1.5 W
Waterproof grade: IP65

Product description:

This LED module is designed for outdoor illuminated advertising and signage. With its compact dimensions of 46x30 mm and high luminous intensity, it is ideal for illuminating advertising panels, signs and other applications requiring reliable and energy-efficient lighting.

 Specifications:

- **Dimensions:** 46 x 30 mm
- **Supply voltage:** DC 12V
- **Power:** 1.5W
- **Luminous flux:** up to 240 lm
- **LED chip type:** SMD 3030
- **Light color temperature:** depending on the variant
- **Beam angle:** 180°
- **Color rendering index (CRI):** ≥80
- **Protection level:** IP65 (waterproof)
- **Operating temperature:** -20°C to 70°C
- **Lifespan:** ≥50,000 hours

 The module is equipped with three high-brightness SMD 2835 LEDs, which ensure uniform and intense lighting. Thanks to its waterproof design with IP65 protection, it is suitable for outdoor use even in harsh weather conditions. The module is designed for easy installation and long service life, making it an ideal choice for professional lighting applications.

 Price for 1 module, max. 20 pieces in the series.
