

Electrical installation insulating tape black 0.13x38mm, 10m

Product codes:

Reference: AM9208

EAN13: -

UPC: 39191080

Product features:

Length: 10 m

Product attributes:

Product description:

This insulating tape is ideal for a variety of uses, such as insulating electrical wires, securing cables, minor repairs, decorative applications and many more. Available in a wide range of colours, our tape allows for easy organisation and coding of wires and cables, but also offers creative possibilities for decorative purposes. With excellent flexibility and adhesion, our tape is easy to apply and holds firmly, ensuring stable and reliable insulation.

Application: Ensure the surface to which the tape will be applied is clean and dry to ensure optimal adhesion. Use the required length of tape and apply with firm pressure to ensure even adhesion. For a longer lasting and stronger bond, leave the tape in place without any load for at least 24 hours.

Material: PVC

Working temperature: +10°C to +85°C

Electrical strength: 72.9kV/mm
