

D-SUB DB25 (DE25) connector, female, 25pin - solder cup

Product codes:

Reference: AM9079

EAN13: -

UPC: 85369010

Product features:

Connector: DB25

Number of pins: 25-pin

Type: Females

Product attributes:

Color: Blue

Product description:

The standard DB25 female connector with solder cup is designed for universal use in electronics, telecommunications and industrial applications. It is used for signal transmission, data and connection of various devices. Thanks to its high-quality design, it ensures reliable connection and long service life.

Technical specifications

- Connector type: DB25 (female)
- Number of pins: 25
- Pin pitch: 2.77 mm (D-sub standard)
- Installation: panel with mounting holes
- Connection: solder cup (for easy soldering of wires)
- Material: metal casing, plastic insulation
- Dimensions: according to D-sub standard (approx. 53 × 13 mm without handles)
- Operating temperature: -55°C to +105°C

Functions and features

- Reliable signal and data transmission
-

- Durable metal body for better shielding against interference
- Standard design compatible with most devices
- Easy panel mounting
- Possibility of universal use in electronic projects

Ideal for

- Interconnection of control systems and devices
- Telecommunications and computer applications
- DIY electronic projects
- Repair and maintenance of older devices with DB25 ports

Package contents

- 1× DB25 female connector, 25pin

Why choose this product?

- Standard and widely used connector type
- Easy installation and soldering
- Reliable electrical connection
- Durable construction with long service life
- Universal use in many industries
