

D-SUB DB15 (DE15) connector, female, 15pin - solder cup

Reference: AM6648

EAN13: -

HS code: 85369010

Product attributes:

Color: White, Blue, Black

Product features:

Connector: DB15

Number of pins: 15-pin

Type: Females

Product description:

The DB15 female connector with solder cup is a standard D-sub connector used in a wide range of applications, from computer and industrial equipment to electronic projects. With its robust metal construction, it provides reliable shielding against electromagnetic interference and ensures a long connection life.

Technical specifications

- Connector type: DB15 (female)
- Number of pins: 15
- Pin pitch: 2.77 mm (D-sub standard)
- Installation: panel with mounting holes
- Connection: solder cup (for easy soldering of wires)
- Material: metal casing, plastic insulation
- Dimensions: according to D-sub standard (approx. 39 × 12 mm without handles)
- Operating temperature: -55°C to +105°C

Functions and features

- Reliable signal and data transmission
- Durable metal housing for better shielding
- Standard design compatible with most devices
- Easy panel mounting
- Suitable for long-term and repeated use

Ideal for

- Connecting computer peripherals
- Control and measurement technology
- Electronic and DIY projects
- Repair and maintenance of devices with DB15 ports

Package contents

- 1 × DB15 female connector, 15pin

Why choose this product?

- Widely used standard connector
 - Easy installation and soldering
 - Reliable electrical connection
 - Durable metal construction with long service life
 - Universal use in industry and home projects
