

D-SUB DB25 (DE25) connector, male, 25pin - solder cup

Reference: AM8672

EAN13: -

HS code: 85369010

Product attributes:

Color: Blue

Product features:

Connector: DB25

Number of pins: 25-pin

Type: Male

Product description:

The DB25 male connector with solder cup is a classic D-sub connector used in computer technology, telecommunications and industrial applications. Thanks to its robust metal construction, it provides reliable shielding against electromagnetic interference and guarantees long-term reliability. It is suitable for both new projects and repairs of older equipment.

Technical specifications

- Connector type: DB25 (male)
- Number of pins: 25
- Pin pitch: 2.77 mm (D-sub standard)
- Installation: panel with mounting holes
- Connection: solder cup (for easy soldering of wires)
- Material: metal casing, plastic insulation
- Dimensions: according to D-sub standard (approx. 53 × 13 mm without handles)
- Operating temperature: -55°C to +105°C

Functions and features

- Reliable signal and data transmission
- Durable metal construction with anti-interference shielding
- Compatible with DB25 female connectors
- Easy soldering of wires thanks to soldering cups
- Suitable for long-term and repeated use

Ideal for

- Interconnection of computer and communication devices
- Control and measurement technology
- Electronic and DIY projects
- Repair and upgrade of devices with DB25 ports

Package contents

- 1 × DB25 male connector, 25pin

Why choose this product?

- Widely used standard connector type
 - High-quality and durable construction with a long service life
 - Reliable electrical connection
 - Easy assembly and connection
 - Universal use in industry, IT and home projects
