

# D-SUB DB9 (DE9) connector, male, 9pin - solder cup

Reference: AM6159

EAN13: -

HS code: 85369010

## Product attributes:

Color: White, Blue, Black

## Product features:

Connector: DB15

Number of pins: 9-pin

Type: Male

## Product description:

The DB9 male connector with solder cup is a classic D-sub connector used mainly for serial communication (RS232) and connecting various electronic devices. Thanks to the metal shell, it provides reliable shielding against interference and a long service life. It is suitable for both new installations and repairs of older devices and DIY projects.

## Technical specifications

- Connector type: DB9 (male)
- Number of pins: 9
- Pin pitch: 2.77 mm (D-sub standard)
- Installation: panel with fixing holes
- Connection: solder cup (for easy soldering of wires)
- Material: metal casing, plastic insulation
- Dimensions: according to D-sub standard (approx. 30 × 12 mm without handles)
- Operating temperature: -55°C to +105°C

## Functions and features

- Durable metal body with anti-interference shielding
- Universal use in industry and home electronics
- Compact dimensions for easy installation
- Compatible with standard DB9 female connectors
- Easy soldering and panel mounting

## Ideal for

- Serial interfaces (RS232, RS485)
- Industrial control systems and PLCs
- Electronic and DIY projects
- Repairs and modernization of older equipment

## Package contents

- 1 × DB9 male connector, 9pin

## Why choose this product?

- Standard and widely used connector type
  - Reliable electrical connection
  - Durable metal construction
  - Universal use in many applications
  - Easy installation and maintenance
