

D-SUB DB15 (DE15) connector, male, 15pin - solder cup

Product codes:

Reference: AM5128

EAN13: -

UPC: 85369010

Product features:

Connector: DB15

Number of pins: 15-pin

Type: Male

Product attributes:

Color: White, Blue, Black

Product description:

The DB15 male connector with solder cup is a standard D-sub connector designed for reliable connection of devices in computer technology, industrial applications and home electronics. The robust metal design ensures durability, high-quality shielding against interference and a long service life.

Technical specifications

- Connector type: DB15 (male)
- Number of pins: 15
- Pin pitch: 2.77 mm (D-sub standard)
- Installation: panel with fixing holes
- Connection: solder cup (for easy soldering of wires)
- Material: metal casing, plastic insulation
- Dimensions: according to D-sub standard (approx. 39 × 12 mm without handles)
- Operating temperature: -55°C to +105°C

Functions and features

- Reliable data and signal transmission
-

- Durable metal housing with shielding against electromagnetic interference
- Easy assembly and soldering of wires
- Universal compatibility with DB15 female connectors
- Suitable for long-term use

Ideal for

- Computer and communication interfaces
- Control and measurement technology
- DIY and electronic projects
- Repair and maintenance of older devices with DB15 port

Package contents

- 1× DB15 male connector, 15pin

Why choose this product?

- Widely used standard connector
- High-quality metal construction with long service life
- Easy installation and connection
- Reliable electrical connection
- Universal use in industrial and domestic applications
