

DC Power Connector, male, 5.5x2.1 mm

Reference: AM9877

EAN13: -

HS code: 85369010

Product attributes:

Color: Red, Green, Blue

Product features:

Number of pins: 2-pin

Type: Male

Construction: By screwing

Max. current: 5 A

Product description:

The practical male DC connector with dimensions of 5.5 x 2.1 mm and a screw terminal block allows easy and quick connection of wires without the need for soldering.

Ideal solution for powering camera systems, LED lighting, electronic modules and other devices requiring a stable DC connection.

Technical specifications

- Connector type: DC barrel jack (male)
- Dimension: 5.5 mm (outer diameter) x 2.1 mm (inner diameter)
- Terminal block: 2pin, screw type
- Material: metal + ABS plastic
- Maximum current: up to 5 A
- Maximum voltage: up to 24 V DC
- Color: as per choice

Functions and features

- Easy installation without soldering
- Firm and reliable wire connection using terminals
- Universal use for DC power supply
- Compact and durable design

Ideal for

- Camera and security systems (CCTV)
- LED strips and LED lighting
- Various DIY electronic projects
- Powering small devices and modules

Package contents

- 1x DC male connector 5.5 x 2.1 mm with terminal block

Why choose this product?

- Saves time - no soldering required
 - Flexible use for a wide range of applications
 - Reliable and solid wire contact
 - Long service life thanks to high-quality materials
