

# DC Power Connector, female 3.5x1.35mm

Reference: AM3668

EAN13: -

HS code: 85369010

## Product attributes:

## Product features:

Color: Green

Number of pins: 2-pin

Type: Females

Construction: By screwing

Max. current: 2 A

## Product description:

The practical female DC power connector with dimensions of 3.5 x 1.35 mm and a screw terminal block is designed for quick and reliable connection of power cables without the need for soldering.

Suitable for LED strips, cameras, power supplies and other electronic devices.

## Technical specifications

- Connector type: DC female
- Dimensions: 3.5 x 1.35 mm
- Maximum voltage: 12-24 V DC
- Maximum current: up to 2 A
- Material: plastic / metal
- Wire connection: screw terminal block

## Functions and features

- Quick connection of wires without soldering
- Polarity marked directly on the connector (+ / -)
- Reliable mechanical cable fastening
- Universal use in low-voltage applications

## Ideal for

- LED strips and lighting installations
- Security cameras and monitoring systems
- Power adapters and small electronic projects
- DIY wiring and prototyping

## Package contents

- 1x DC female connector 3.5 x 1.35 mm with terminal block

## Why choose this product?

- Simple and quick connection without the need for soldering
  - Compact design suitable even for confined spaces
  - Universal compatibility with common DC sources and devices
  - Long service life thanks to durable construction
