

DC Power Connector, male 3.5x1.35mm

Reference: AM6330

EAN13: -

HS code: 85369010

Product attributes:

Product features:

Color: Green

Number of pins: 2-pin

Type: Male

Construction: By screwing

Max. current: 2 A

Product description:

Practical DC power connector male, dimensions 3.5 x 1.35 mm with screw terminal block.

Allows quick and easy connection of wires without the need for soldering. Suitable for power adapters, LED lighting, cameras and other electronic devices.

Technical specifications

- Connector type: DC male
- Dimensions: 3.5 mm (outer diameter) x 1.35 mm (inner diameter)
- Maximum current: up to 2 A
- Operating voltage: up to 12-24 V DC
- Material: plastic + metal (tin-plated contacts)
- Wire attachment: screw terminal block
- Connector length: approx. 38 mm
- Color: black + green

Functions and features

- Easy assembly without soldering
- Polarity marked (+) and (-)
- Durable plastic construction with non-slip surface
- Universal use for various DC sources and devices

Ideal for

- LED strips and lighting
- Camera systems (CCTV)
- Power adapters and sources
- DIY electronic projects

Package contents

- 1x DC male connector 3.5 x 1.35 mm with terminal block

Why choose this product?

- Simple wire connection without soldering
 - Compact and durable design
 - Universal use in many applications
 - Affordable and reliable solution
