

# DC Power Connector, male

## 3.5x1.35mm

### Product codes:

Reference: AM6330

EAN13: -

UPC: 85369010

### Product features:

Color: Green

Number of pins: 2-pin

Type: Male

Construction: By screwing

Max. current: 2 A

### Product attributes:

### Product description:

Practical DC power connector male, dimensions 3.5 x 1.35 mm with screw terminal block.

Allows quick and easy connection of wires without the need for soldering. Suitable for power adapters, LED lighting, cameras and other electronic devices.

### Technical specifications

- Connector type: DC male
- Dimensions: 3.5 mm (outer diameter) x 1.35 mm (inner diameter)
- Maximum current: up to 2 A
- Operating voltage: up to 12-24 V DC
- Material: plastic + metal (tin-plated contacts)
- Wire attachment: screw terminal block
- Connector length: approx. 38 mm
- Color: black + green

### Functions and features

- Easy assembly without soldering
-

- Polarity marked (+) and (–)
- Durable plastic construction with non-slip surface
- Universal use for various DC sources and devices

#### **Ideal for**

- LED strips and lighting
- Camera systems (CCTV)
- Power adapters and sources
- DIY electronic projects

#### **Package contents**

- 1× DC male connector 3.5 × 1.35 mm with terminal block

#### **Why choose this product?**

- Simple wire connection without soldering
- Compact and durable design
- Universal use in many applications
- Affordable and reliable solution
