

# Power supply for 2-3pcs 3W LED, 5-10V, 900mA, 10W

Reference: AM7330

EAN13: -

HS code: 85044090

## Product attributes:

## Product features:

Input voltage: 85-265 V AC, 50/60 Hz

Output voltage: 5-10 V DC

Output current: 900 mA

Performance: 10 W

## Product description:

Compact power supply for power LEDs with a constant current of 900 mA. Designed to power 2 to 3 LED chips (3 W each) with a total power of around 10 W. Ideal for stable and safe power supply of LED modules, spotlights or luminaires from a 230 V AC power supply.

## Technical specifications

- Input voltage: AC 85-277V / 50-60Hz
- Output voltage: DC 5-10V
- Output current: 900 mA  $\pm$ 5%
- Output power: up to 10 W (2-3 x 3 W LEDs)
- Efficiency: up to 88%
- PF (Power Factor): 0.6 – 0.95 depending on version
- Protection: IP40
- Dimensions: 56 x 32 x 22 mm (external box)
- Material: plastic / aluminum / PCB
- Certification: CE, RoHS, FCC

## Functions and features

- Constant current for reliable and uniform LED lighting
- Wide input voltage range AC 85-277 V - suitable for worldwide use
- Protection against short circuit, overload and overheating
- High efficiency and low energy losses
- Stable, flicker-free output – suitable for sensitive optical applications

## Ideal for

- Power supply for power LED chips 2-3x3 W
- LED spotlights, luminaires, advertising panels and display case lighting
- Home and industrial projects with low voltage LED sources

## Package contents

- 1 x LED driver

## Why choose this product?

- Stable and safe power supply for LED modules with constant current
- High efficiency and reliability in a compact design
- Possibility of choosing a design for indoor and outdoor installation (IP67)
- CE and RoHS certifications guarantee safety and quality
