

Neodymium magnetic pushpin, N52

Product codes:

Reference: AM2766

EAN13: -

UPC: 85051100

Product features:

Tolerance: ± 0.2 mm

Housing material: Steel

Grade: N52

Material: NdFeB

Product attributes:

Color: Black, Silver

Product description:

A practical and elegant magnetic pushpin made of high-quality metal with a neodymium magnet of class N52. Thanks to its extreme magnetic strength, it is ideal for attaching notes, photos, documents or plans to metal surfaces - from refrigerators and whiteboards to workshop surfaces. Available in two color options: black and silver.

Technical specifications

- Magnet type: Neodymium magnet N52 (5x stronger than regular ferrite magnets)
- Material: iron, boron and A3 steel with triple nickel finish
- Surface finish: nickel plating / black lacquer
- Dimensions: diameter 12 mm, height 15.6 mm
- Weight: approx. 8 g / piece
- Magnet type: permanent
- Protection: 3-layer plating against corrosion

Functions and features

- Strong magnetism - each thumbtack can hold several sheets of paper or small metal objects.
 - Safe grip - ergonomic shape ensures easy handling without the risk
-

of finger injuries.

- Multi-purpose use - for office, school, workshop and home.
- Durable surface - triple plating ensures long life and wear resistance.

Ideal for

- Office and school boards
- Refrigerator, metal shelves, bulletin boards and work surfaces
- Organization of documents, photos, plans and notes
- Workshops and industrial environments where strong magnetic holding is required

Why choose this product?

- Strongest N52 neodymium magnets for maximum attraction
- Elegant metal design with long service life
- Safe and easy to use thanks to ergonomic shape
- Universal use at home, in the office and in industry
- Great performance, quality and price ratio
