

# RCA audio adapter 90°, right angle (male → female)

## Product codes:

Reference: AM1007

EAN13: -

UPC: 85444220

## Product features:

## Product attributes:

Color: Red, Black

## Product description:

High quality RCA adapter with a right angle (90°) for easy connection of audio and video devices even in hard to reach places. This adapter converts a male to female RCA connector and is ideal for amplifiers, speakers, microphones or AV equipment where space is limited. Thanks to gold-plated contacts, it ensures excellent signal transmission without loss of quality.

## Technical specifications

- Connector type: RCA (male → female)
- Connector angle: 90° right angle
- Material: durable plastic with metal core
- Surface finish: gold-plated contacts
- Color: black, red (depending on variant)
- Compatibility: amplifiers, speakers, microphones, players, mixers, etc.

## Functions and features

- RCA male to RCA female 90° angle converter
  - Suitable for connections in confined spaces where straight connectors cannot be used
  - High-quality gold-plated contacts for maximum conductivity and minimal signal loss
-

- Durable plastic body with anti-slip surface
- Easy connection – just plug and play

**Ideal for**

- Amplifiers and audio systems
- Home theater and players
- Music and studio equipment
- Installations where an angled connection is required

**Package contents**

- 1× RCA adapter male → female (black or red version)

**Why choose this product?**

- Compact angled design saves space and protects cables from bending
- Gold-plated contacts ensure clear transmission of sound and image
- Universal use for various types of audio and video equipment
- Durable design and long service life
