

Li-Pol car battery charger, 21V, 1A, 5.5x2.1mm

Product codes:

Reference: AM9393

EAN13: -

UPC: 85044090

Product features:

Input voltage: 12-24 V DC

Output voltage: 21 V DC

Output current: 1 A

Product attributes:

Product description:

The compact and reliable CY-150360 car charger is ideal for powering and recharging 21V devices such as electric screwdrivers, 18650 Li-ion batteries or portable tools. It plugs directly into your car's cigarette lighter socket for fast and safe charging while driving.

Technical specifications

- Input voltage: DC 12-24V
- Output voltage: 21V DC
- Output current: 1 A
- Model: CY-150360
- Connector type: 5.5 mm × 2.1 mm (round DC connector)
- Charging indication: red diode (charging), green diode (fully charged)
- Protections: against overvoltage, overload and overheating
- Material: durable ABS plastic body
- Dimensions: 90 × 35 × 25 mm
- Weight: 60g

Functions and features

- Automatic end of charging when fully charged
 - LED charging status indicator
-

- Universal 12-24V input suitable for cars and trucks
- Stabilized output current of 1 A for safe charging
- Compact and lightweight design suitable for travel
- Protection against overvoltage, short circuit and overheating

Ideal for

- Charging Li-ion 18650 batteries and LiPo packs
- 21V electric screwdrivers, hand tools and portable equipment
- Service and hobby use in a car

Package contents

- 1 × Car charger CY-150360 (21 V 1 A)

Why choose this product?

- High quality and compatibility with most common tools
- Easy to use – just plug into a 12/24 V socket
- Safe and efficient charging with automatic control
- Durable design for long life in workshop and automotive environments
