

# H27 (880), 6W, 12-24V - White

Reference: AM4615

EAN13: -

HS code: 85392210

## Product attributes:

## Product features:

Angle of light: 360°  
Luminosity: 2300-2400 lm  
Patience: H27W/1  
Voltage: 12-24 V DC  
Power consumption: 6 W  
Waterproof grade: IP68  
Lifetime: 60 000 hodin

## Product description:

The powerful LED bulbs with 880 base in white are a modern replacement for classic halogen bulbs. They offer high brightness, low energy consumption and a long lifespan. They are ideal for use as fog lights or daytime running lights (DRL) and provide pure white light with a temperature of 6000 K for maximum visibility even in difficult conditions.

## Technical specifications

- Socket: 880 (H27 type)
- Power supply: 12-24V DC
- Power consumption: 6 W
- Luminous flux: 2400 lm (super bright light)
- Light color: White (6000 K)
- LED type: 3030 SMD, 24 chips
- Material: Aluminum 6063 + LED
- Lifespan: up to 60,000 hours
- Waterproof: IP68 - resistant to water, dust and vibration
- Dimensions: 59 × 13 mm (height × diameter)
- Operating temperature: -40 °C to +80 °C
- Weight: 45g/piece

## Functions and features

- High brightness and energy saving - up to 70% less consumption than halogen bulbs
- 24 powerful 3030 SMD LEDs ensure even lighting without dark spots
- Efficient heat dissipation thanks to aluminum body with high thermal conductivity
- Instant lighting without delay - ideal for modern cars
- Non-polarized connection - works regardless of the polarity of the contacts
- Easy Plug & Play installation - replacement for the original bulb without modifying the wiring

## Ideal for

- FOG LIGHTS - high brightness even in heavy rain, snow or fog
- DAYTIME RUNNING LIGHTS (DRL) - pure white light for better vehicle visibility
- Suitable for cars, motorcycles, SUVs, ATVs and work machines

## Package contents

- 2 × LED bulb 880 (white color)

## Why choose this product?

- 200% brighter than conventional halogen bulbs
  - Made of quality aluminum for maximum heat dissipation
  - IP68 protection - reliable operation in rain, snow and dust
  - Long lifespan of up to 60,000 hours
  - Easy installation - suitable for a wide range of vehicles
