

Cable adapter DC 5.5×2.1 mm to RCA (male)

Product codes:

Reference: AM4521

EAN13: -

UPC: 85044090

Product features:

Connector: 5.5x2.1 mm

Waterproof grade: IP20

Product attributes:

Product description:

A reduction cable that allows you to connect chargers with a DC 5.5×2.1 mm output to devices using an RCA charging connector. This adapter is ideal for e-bikes, e-scooters, scooters and other devices that require a reliable and precise connection between the charger and the battery.

Technical specifications

- Input connector: DC 5.5×2.1 mm (female)
- Output connector: RCA (male)
- Cable length: 19 cm
- Insulation material: PVC with copper conductor
- Heat resistance: up to 105 °C
- Weight: 18g
- Degree of protection: IP20

Functions and features

- Allows easy connection of the charger to the RCA charging port.
 - Precision connectors ensure stable and secure contact.
 - The durable cable material extends its lifespan and protects against damage.
 - Compact size and light weight for convenient carrying.
-

Ideal for

- Chargers with DC connector 5.5×2.1 mm
- Electric bikes, electric scooters and other devices with RCA charging connector
- Service and universal charging applications

Package contents

- 1× DC 5.5×2.1 mm → RCA adapter

Why choose this product?

- Quick and seamless expansion of charger compatibility.
- High quality workmanship and long service life.
- Secure connection thanks to precise connectors and high-quality materials.
