

Cable adapter DC 5.5×2.1 mm to XLR, 3pin (male)

Product codes:

Reference: AM8664

EAN13: -

UPC: 85044090

Product features:

Connector: 5.5x2.1 mm

Waterproof grade: IP20

Product attributes:

Product description:

High-quality adapter cable designed to connect chargers with a DC 5.5×2.1 mm output to batteries or devices equipped with an XLR connector. This adapter is ideal for e-bikes, e-scooters, wheelchairs and other applications where XLR connectors are commonly used as a charging port.

Technical specifications

- Input connector: DC 5.5×2.1 mm (female)
- Output connector: XLR (male, 3-pin)
- Cable length: 22 cm
- Insulation material: PVC with copper conductor
- Heat resistance: up to 105 °C
- Weight: 22g
- Degree of protection: IP20

Functions and features

- Universal adapter for charging devices with XLR port.
- Stable current transmission thanks to high-quality metal contacts.
- Durable design suitable for long-term use.
- Compact size and easy to use.

Ideal for

- Chargers with DC connector 5.5×2.1 mm
- Devices with XLR charging connector (e-bikes, scooters, carts)
- Service centers and universal charging solutions

Package contents

- 1× DC adapter 5.5×2.1 mm → XLR (3-pin)

Why choose this product?

- Quickly expand charger compatibility without the need for modifications.
- High-quality design ensuring safe contact and long service life.
- Suitable for a wide range of electric vehicles.
