

Cable adapter DC 5.5×2.1 mm to GX12, 3pin

Reference: AM9229

EAN13: -

HS code: 85044090

Product attributes:

Product features:

Connector: 5.5x2.1 mm

Waterproof grade: IP20

Product description:

A practical adapter cable that allows you to connect chargers with a DC 5.5×2.1 mm output to battery systems using a GX12 (3-pin) connector. This adapter is ideal for a wide range of electrical devices such as e-bikes, scooters, scooters or smaller industrial applications.

Technical specifications

- Input connector: DC 5.5×2.1 mm (female)
- Output connector: GX12 (3-pin, male)
- Cable length: 20 cm
- Material: PVC insulation, copper conductor
- Heat resistance: up to 105 °C
- Weight: 18g
- Degree of protection: IP20

Functions and features

- Allows easy connection of chargers with a DC connector to devices with a GX12 port.
- Durable and solid connectors ensure stable and safe power transmission.
- High-quality workmanship for long-term use even in more demanding conditions.
- Compact design suitable for transport and service purposes.

Ideal for

- Chargers with DC 5.5×2.1 mm connector
- Electric scooters, e-bikes and other devices with GX12 charging connector
- Service and universal charging applications

Package contents

- 1× DC adapter 5.5×2.1 mm → GX12 (3-pin)

Why choose this product?

- Easily expand the compatibility of your charger.
 - High resistance to heat and mechanical stress.
 - Safe and precise connection thanks to high-quality contacts.
