

Cable adapter DC 5.5×2.1 mm to GX16, 3pin

Product codes:

Reference: AM5677

EAN13: -

UPC: 85044090

Product features:

Connector: 5.5x2.1 mm

Waterproof grade: IP20

Product attributes:

Product description:

Universal adapter cable for connecting chargers with DC 5.5×2.1 mm output to devices using a robust GX16 connector (3-pin). Particularly suitable for electric scooters, e-bikes, industrial battery systems and other devices requiring a reliable and solid connection.

Technical specifications

- Input connector: DC 5.5×2.1 mm (female)
- Output connector: GX16 (3-pin, male)
- Cable length: 21 cm
- Material: copper conductor, PVC insulation
- Heat resistance: up to 105 °C
- Weight: 22g
- Degree of protection: IP20

Functions and features

- Possibility of easy connection of chargers with DC connector to devices with GX16 input.
 - Precisely processed GX16 connector for stable current transmission without dropouts.
 - Highly durable cable suitable for frequent use.
 - Compact dimensions allow for easy storage and transport.
-

Ideal for

- Chargers and power supplies with DC 5.5×2.1 mm connector
- Electric scooters, electric bikes, industrial battery systems
- Service and universal charging solution

Package contents

- 1× DC adapter 5.5×2.1 mm → GX16 (3-pin)

Why choose this product?

- Quick and safe expansion of charger compatibility.
- Durable metal design of the GX16 connector for long life.
- Reliable contact thanks to high-quality wires and connectors.
