

Cable adapter DC 5.5×2.1 mm to 8mm connector

Reference: AM9122

EAN13: -

HS code: 85044090

Product attributes:

Product features:

Connector: 5.5x2.1 mm

Waterproof grade: IP20

Product description:

A practical adapter cable that allows you to connect chargers with a DC 5.5×2.1 mm output to battery systems using an 8mm, DC connector. This adapter is ideal for a wide range of electrical devices such as e-bikes, scooters, scooters or smaller industrial applications.

Technical specifications

- Input connector: DC 5.5×2.1 mm (female)
- Output connector: DC 8mm (male)
- Cable length: 20 cm
- Conductor material: high quality copper
- Insulation: flexible PVC
- Heat resistance: up to 105 °C
- Weight: 17g
- Degree of protection: IP20

Functions and features

- Possibility to extend or adjust the range of the charger or DC power supply.
- Suitable for connecting DC devices of the same connector diameter.
- Durable connectors with solid contacts for safe current transmission.
- The flexible cable allows for convenient handling even in limited spaces.

Ideal for

- Chargers and power adapters with DC 5.5×2.1 mm connector
- Electric scooters, e-bikes, DC electronics and accessories
- Service and home use, extending the power supply range

Package contents

- 1x adapter DC 5.5×2.1 mm female → DC 5.5×2.1 mm male

Why choose this product?

- Universal use for a wide range of DC devices.
 - Simple and quick installation without the need for modifications.
 - Reliable transmission thanks to high-quality wire and precise connectors.
