

Spiral tubing, 10 mm, 10m

Product codes:

Reference: AM1264

EAN13: -

UPC: 81021000

Product features:

Product attributes:

Color: White, Yellow, Red, Green, Blue, Black, purple, Orange

Product description:

Spiral protective tubing is used for clear bundling, mechanical protection and organization of cables and wires. Thanks to the spiral design, it allows easy insertion and removal of individual cables at any point in the bundle. It is suitable for use in electrical installations, switchboards, workshops, offices and home applications.

Technical specifications

- Inner diameter: 10 mm
- Outer diameter: 12 mm
- Length: 10 meters
- Material: polyethylene (PE)
- Weight: 160g
- Protection: IP20
- Operating temperature: $-20\text{ }^{\circ}\text{C}$ to $+80\text{ }^{\circ}\text{C}$
- Design type: spiral protective tube

Functions and features

- Spiral shape allows for easy installation without the need for tools
 - High flexibility and dimensional stability
 - Resistance to abrasion and normal mechanical stress
 - Good chemical and corrosion resistance of PE material
 - Possibility to route individual cables anywhere along the bundle length
-

- Suitable for repeated assembly and disassembly

Ideal for

- Bundling of power and signal cables
- Cable distribution in switchboards and machinery
- Cabling arrangement in offices and homes
- Automotive and laboratory applications
- Color coding and marking of cable harnesses

Package contents

- 1× spiral protective tube D 10 mm, length 10 m, color according to the selected variant

Why choose this product?

- A simple and quick solution for protecting and organizing cables
- High-quality PE material with long service life
- Universal use in professional and hobby applications
- Available in color options: white, black, red, blue, green, yellow, purple, orange
- Clean and clear installation without complicated assembly
