

Battery box for 9V battery, with ON/OFF switch

Reference: AM6859
EAN13: -
HS code: 85079090

Product attributes:

Product features:

Rated voltage: 9 V DC
Waterproof grade: IP20

Product description:

Practical battery box designed for one 9V battery (type 6F22) with integrated ON/OFF slide switch. Serves as a simple and safe power source for electronic projects, measuring instruments, prototypes, toys or portable devices where easy disconnection of power is required without the need to remove the battery.

Technical specifications

- Battery type: 1× 9V (6F22)
- Rated voltage: 9V DC
- Output wires: red (+), black (-)
- Wire length: 150 mm
- Switch: mechanical sliding ON/OFF
- Housing material: plastic (ABS)
- Color: black
- Dimensions: 69 × 33 × 21 mm
- Weight: 20g
- Protection: IP20

Functions and features

- Integrated power switch allows immediate power disconnection
- Lead wires ready for soldering or direct connection
- Securely holds a 9V battery using metal contacts
- Battery protection against mechanical damage
- Easy installation in a device or project box

Ideal for

- Electronic kits and DIY projects
- Power supply for sensors, modules and test circuits
- Portable measuring devices
- Toys, alarms and simple control circuits
- Educational and school projects

Package contents

- 1× battery box for 9V battery with on/off switch

Why choose this product?

- Integrated power switch saves energy and extends battery life
 - Compact dimensions suitable even for small devices
 - Ready to use immediately without further modification
 - Reliable power solution for a wide range of applications
