

Fan 80x80x20mm, 12V DC, IP20, KDE1208PKV3

Product codes:

Reference: AM5223

EAN13: -

UPC: 84145925

Product features:

Voltage: 12 V DC

Size: 80x80 mm

Power consumption: 0,8 W

Waterproof grade: IP20

Lifetime: 70,000 hours

Bearings: Balls

Product attributes:

Product description:

Compact axial fan from SUNON designed for efficient cooling of electronic devices, power supplies, control units and industrial switchboards. The fan uses original MagLev technology, which ensures a very long service life, stable operation and low mechanical wear.

Technical specifications

- Supply voltage: 12 V DC
 - Power consumption: 0.8 W
 - Rated current: 0.067 A
 - Number of revolutions: 1800 RPM
 - Airflow: 36 CFM
 - Fan type: axial
 - Dimensions: 80 × 80 × 20 mm
 - Bearing type: MagLev
 - Manufacturer's designation: KDE1208PKV3
 - Weight: 75g
 - Degree of protection: IP20
-

Functions and features

- MagLev bearing for extra long life
- Stable operation without mechanical bearing contact
- Low energy consumption
- Suitable for continuous operation
- Standard 80 mm dimension for easy integration

Ideal for

- Cooling of power supplies and converters
- Industrial control systems and switchboards
- Electronic modules and embedded applications
- OEM and service use

Package contents

- Fan SUNON KDE1208PKV3

Why choose this product?

- Original MagLev technology from SUNON
- Long service life and high operational reliability
- Low power consumption with effective cooling
- Proven solution for professional applications
