

Fan 80x80x25mm, 24V DC, IP20, KD2408PTB1-6A

Product codes:

Reference: AM3587

EAN13: -

UPC: 84145925

Product features:

Current: 0,14 A

Voltage: 24 V DC

Size: 80x80 mm

Power consumption: 3,4 W

Waterproof grade: IP20

Lifetime: 70,000 hours

Bearings: Balls

Product attributes:

Product description:

Axial fan from SUNON designed for reliable and efficient cooling of electronic devices, power supplies, industrial switchboards and control systems. The fan uses MagLev technology, which ensures long service life, stable operation and high operational reliability even during continuous operation.

Technical specifications

- Supply voltage: 24 V DC
 - Power consumption: 3.4 W
 - Fan type: axial
 - Dimensions: 80 × 80 × 25 mm
 - Number of tillers: 4900 RPM
 - Bearing type: MagLev
 - Manufacturer's designation: KD2408PTB1-6A
 - Rated current: 0.14 A
 - Weight: 95g
-

- Degree of protection: IP20

Functions and features

- MagLev technology for long life without mechanical wear
- High cooling capacity with compact dimensions
- Stable operation under continuous load
- Standard size 80 mm for easy installation
- High-quality design from the renowned manufacturer SUNON

Ideal for

- Cooling of power supplies and converters
- Industrial switchboards and control systems
- Electronic modules and devices with higher thermal output
- OEM and service applications

Package contents

- SUNON KD2408PTB1-6A fan

Why choose this product?

- Original SUNON MagLev technology
- Higher performance compared to thinner 20mm fans
- Long service life and high operational reliability
- Suitable for professional and industrial use
