

Alkaline battery AGFAPHOTO 6LR61, 9 V

Product codes:

Reference: AM8497

EAN13: 4250175851808

UPC: 85078000

Product features:

Rated voltage: 9 V

Charging: No

Product attributes:

Product description:

The AgfaPhoto Ultra 6LR61 disposable alkaline-manganese battery is designed to power devices using a 9 V block battery. It is suitable for common electronic devices where a stable power supply in the appropriate format is required. The product is supplied in 1 piece.

Technical specifications

- Battery type: 6LR61
- Size designation: 9 V
- Rated voltage: 9V
- Technology: alkaline-manganese
- Rechargeable: no
- Dimensions: 25.5 × 48.5 × 16 mm
- Package contents: 1 pc.
- Manufacturer's designation: 110-851808
- EAN: 4250175851808

Functions and features

- 9 V block design for compatible devices with this battery format.
- Disposable alkaline design designed for immediate use without charging.
- Suitable for devices with normal and higher power consumption when

using 9 V batteries.

- Compact dimensions corresponding to the standard 6LR61 design.

Ideal for

- 9 V battery powered detectors and measuring instruments
- flashlights
- toys
- clock
- remote controls

Package contents

- 1x AgfaPhoto Ultra 6LR61 9V battery

Why choose this product?

- Clearly designated 6LR61 format for devices requiring a 9V battery.
- Alkaline-manganese technology for one-time power supply without the need for recharging.
- The dimensions listed allow checking mechanical compatibility with the device.
- Sold in 1 piece, suitable for individual battery replacement.

Installation and operating instructions

- When inserting, observe the correct polarity according to the device marking.
- Do not attempt to recharge the battery.
- We recommend removing the battery before storing or decommissioning the device for a long period of time.
- Use only in devices designed for a 9 V battery in the 6LR61 format.

Safety notice

- Do not short-circuit, disassemble, or expose the battery to fire or high temperatures.
- Do not charge or combine it with other types, brands, or batteries of different types or uses.
- In case of electrolyte leakage, avoid contact with skin and eyes.
- Keep out of reach of children.
- Hand in the used battery at a collection point for separate collection of batteries.
