## A high-power LED chip, appearing as a yellow square, is mounted on a silver-colored metal heat sink. The heat sink has a central square pad with a grid of small holes, and four larger circular pads at the corners. The LED chip is connected to the central pad by a grid of small gold-colored wires. The heat sink is mounted on a larger metal base with four circular holes at the corners.

Ljusets färg: Varm vit  
Färgtemperatur: 3000-3500 K  
Ljusets vinkel: 140-150°  
Luminosity: 1600-1800 lm  
Aktuellt: 1500-1700 mA  
Spänning: 12-15 V DC  
Prestanda: 20 W  
Chip: 30x30 mil
